

## *MEMORANDUM*

**TO:** Potential Bidders  
**FROM:** The Goodman Corporation  
**DATE:** 1/22/2015  
**SUBJECT:** **Requests for Information**

The Goodman Corporation (TGC) has received the following Requests for Information (RFI) as it relates to the Texas City /La Marque New Freedom Improvement Project. Answers follow below:

1. How will tree protection be completed along the project limits?

**Answer:** Once awarded the design engineer will review the project site to develop a tree protection plan. If needed, the design engineer will supply the contractor with same. A tree protection construction allowance not to exceed \$2,000 has been added to the revised general notes in Addendum #1.

2. How will notification to residents and property owners be coordinated?

**Answer:** Coordination with residents and property owners that reside along the project limits will be conducted by the City of La Marque once the contract is awarded. The selected contractor should be prepared to coordinate door-hanger access with property owners as needed. This has been added to the general notes in Addendum #1.

3. Will the concrete plant have to be TxDOT certified?

**Answer:** This is not a requirement for driveway and sidewalk work. Refer to General Notes Specification #15.

4. Will there be any "hold time" for inspection prior to work beginning?

**Answer:** This will be discussed at the pre-construction meeting with representatives from TxDOT and the City of La Marque.

5. Who will be responsible for materials testing?

**Answer:** Testing will be coordinated by a third-party provider. Language regarding sub-grade material testing has been added to Addendum #1.
